

ITC Cyber Security Breakfast

Understand your cyber risk

Some simple steps to improve your defences

Wednesday 19th June 2019 - 8.30am to 10am
The Garden Room at The Ivy City Garden,
Dashwood House, 69 Old Broad St, London, EC2M 1QS

The first step towards managing your cyber risk is to understand the level of threat your business could be exposed to. Organisations are aware that they need to take action, but knowing where to begin and recognising the threats faced is not widely understood.

Our next Cyber Breakfast will address the issue; how to get the cyber basics right to help shape your culture, guide security investment and identify the solutions that will help you protect your brand.

The National Cyber Security Centre (NCSC) report that well over half of UK mid-tier businesses suffered a cyber incident in 2018, yet close to 60% of organisations have no clear plan to handle such an event.

Our Cyber Breakfast will provide you with some clear advice on how to plan and improve your cyber security in an uncertain world.

Please RSVP to marketing@itcsecure.com to confirm attendance and inform us of any dietary requirements.
