MICROSOFT SECURITY COPILOT READINESS ASSESSMENT

Build a faster future with Microsoft and ITC Secure

Prepare your organisation for Microsoft Security Copilot and empower your security team with AI-augmented defences. As a leading Microsoft Security partner and early participant in the Microsoft Security Copilot Partner Private Preview, ITC helps organisations improve their defences and reap the benefits of generative AI with their onboarding of Microsoft Security Copilot.

Organisations continue to battle against the evolving threat landscape, cyber security skills shortage and budget constraints. Microsoft Security Copilot is the first AI-powered security product that enables security professionals to identify, investigate and trigger remediation actions, facilitating increased and faster insight to deliver better defence, critical cost savings and greater efficiency.

With tools like Microsoft Security Copilot, ITC understands that your business' defences can often only be as good as the services and processes that underpin them. We help to address this by giving you the insight and assistance needed to safely build the right security foundations, with the relevant guardrails — integrate people, processes, and technology, and make your cyber security a priority.

One step further.

Achieve incident response, threat hunting, intelligence gathering and posture management with integration into existing Microsoft tools. Close your security gaps and generate guidance and protection that's specific to your organisation.

Microsoft Purview
Data security: Streamline data management of complex alerts with guidance on relevant AI guardrails.

Microsoft Intune
Device Management: Facilitate policy creation, and pre-deployment reviews.

Microsoft Entra
Identity Management: Secure identities and investigate risks.

Microsoft Defender for Cloud
Cloud security: Identify and gain insight into risks at pace.

Microsoft Sentinel
Intelligent security analytics: Collect security data and correlate alerts from any source.

Microsoft XDR
Prevention and detection: Automatic disruption and response at the speed of AI.

Elevate your security operations with a comprehensive cyber security strategy, powered by Microsoft Security Copilot, delivered by ITC experts.

Get started today.

Whether you need advice on how to get started, how to build capabilities tailored to your needs and budget, or continuous management across your environment, we can enable you to reduce complexity, cost and risk to your organisation with our dynamic balance of people, processes and technology.

ADVISE

We will assess your current security landscape and identify any existing gaps, taking into consideration your business priorities and objectives to accelerate your ability to onboard Microsoft Security Copilot.

BUILD

A tailored plan is mapped out based on the findings of the assessment. Our experts are on hand to support you with your deployment and configuration as you begin your journey to AI.

MANAGE

Leverage ITC SOC expertise with robust built-in processes, to deliver more accurate and faster detection and response across your estate and provide more intelligent insight on security posture 365 days a year.

If you'd like to speak to one of our security experts or book a readiness assessment, please email us at enquiries@itcsecure.com, call 0207 517 3900 or get in touch here.

About us.

ITC Secure (ITC) is an advisory-led cyber security services provider and a Microsoft Solutions Partner with designations in Security, Modern Work, and Infrastructure.
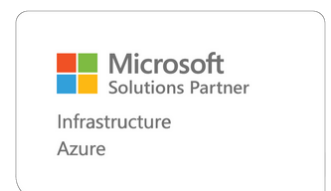

The company has a 25+ year track record of delivering business-critical services to over 300 global blue-chip organisations, bringing together the best minds in security, a relentless focus on customer service, and advanced technological expertise to help businesses succeed.

With its integrated delivery model, 24×7 fully managed state-of-the-art Security Operations Centre, and customer-first mindset, ITC works as an extension of its customers' teams to accelerate their cyber maturity – safeguarding their digital ecosystem, securing their business, and their reputation.

ITC serves global organisations from its locations in the UK and US with a world-class team of cyber consultants, technical designers, and cyber experts.

The company is a certified Great Place to Work® employer and an active member of the Microsoft Intelligent Security Association (MISA). ITC is also the winner of the 'Cyber Security Company of the Year 2022' award, 'Customers at the Heart of Everything 2022' award, Best Workplaces™ 2022, Best Workplaces™ in Tech 2022 and Best Workplaces™ for Wellbeing 2023.
